Coin Grading Workshop

SPONSORED BY NUMISMATIC GUARANTY CORPORATION (NGC)
ON THE OCCASION OF THE WORLD MONEY FAIR IN BERLIN

WHO?

NGC authenticates coins, grades them according to an internationally recognized scale of 1 to 70, and encapsulates them in its proprietary holders designed for security and long-term preservation. Coins certified by NGC are backed by the NGC Guarantee, which provides recourse in the rare event that NGC certifies a not genuine coin or overgrades a coin.

WHAT?

David J. Camire, NGC Grading Finalizer, will conduct a workshop where participants will learn how to professionally evaluate coins for authenticity and grade. They will also talk about the importance of encapsulation and explain professional conservation from Numismatic Conservation Services (NCS). Real coins examples will be used for demonstration purposes.

This workshop aims at collectors and dealers as well as other professionals of the coin industry.

Limited to 15 participants per session.
