

Dear coin collectors, friends and guests,
We are proud to celebrate the 75th anniversary of
the Federal Republic of Germany!

The founding of the Federal Republic of Germany 75 years ago marked not only political milestones, but also a numismatic turning point - the introduction of the Deutsche Mark. This currency was a symbol of economic growth and a treasure for collectors worldwide.

The diverse coins of the Deutsche Mark tell the story of an era that continues to enrich our hearts and collections to this day. Despite their disappearance from circulation, their historical significance and beauty remain alive in the hands of collectors who preserve this heritage.

Join us in celebrating the 75th anniversary of the Federal Republic of Germany and the precious memory of the Deutsche Mark!

With numismatic greetings,
Professional Association of the German Coin Trade

with the friendly support of

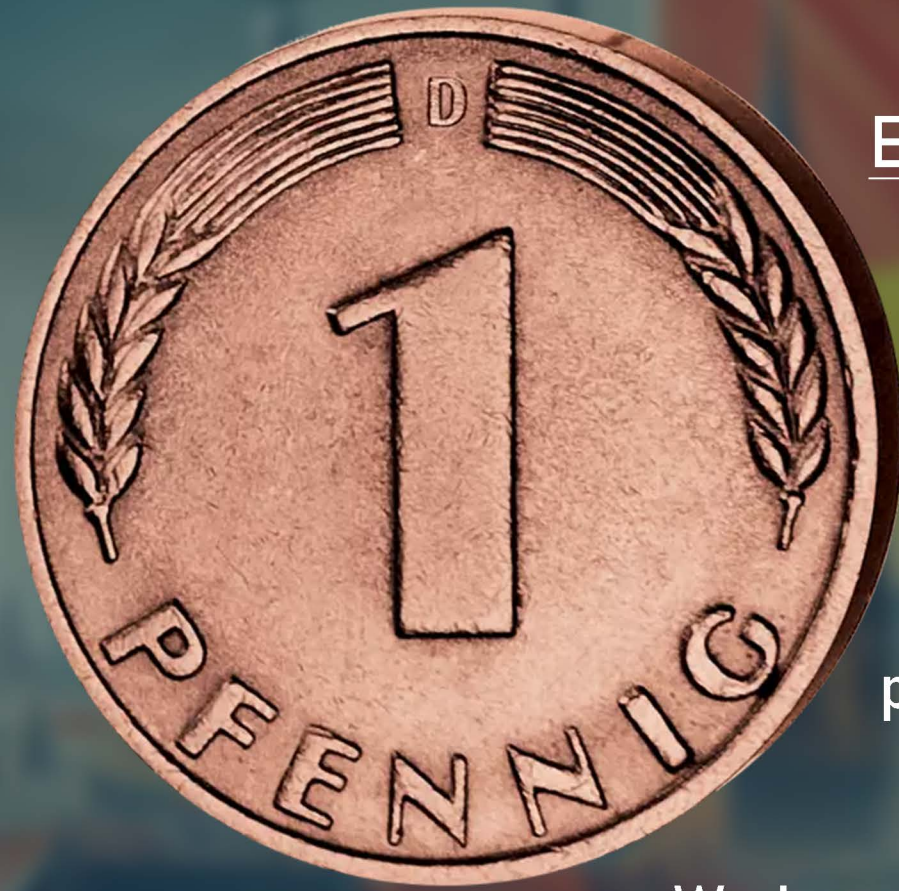

Leuchtturm

We are delighted to present you, the visitor, with a special memento of the history of the German mark: a pfennig of the Federal Republic of Germany.

This year marks the 75th anniversary of the Federal Republic of Germany, and what better way to celebrate this event than to hold a piece of history in your hands?

Every participant in the WMF Coin Pass will receive a 1 Pfennig 1949 from the Bank Deutscher Länder:

These were the first D-Mark coins of the Federal Republic, minted from 1948. This makes the 1949 Pfennig a rare and valuable piece of German history.

Every visitor to our stand will receive a lucky Pfennig:

A 1 Pfennig coin of the Federal Republic, freshly minted from original rolls, protectively packaged in a capsule from LEUCHTTURM.

We hope that this penny will remind you of Germany's rich history and culture and that you will treasure it as a memento of your visit to our stand and of the 75th anniversary of the Federal Republic of Germany.

Mit freundlicher
Unterstützung der Firma

Leuchtturm

Only 1 piece per visitor!
